Bits and Pieces 3D Imagery

Specification

Bits and Pieces is a store that sells homeware goods and dining accessories. An e-commerce platform is under development and there is a need for the production of content to fill the website. In this document you will some wireframes which give an indication of where and what sort of images are needed. In addition to this, inspiration photos should be used as a loose guide for coming up with creative ideas for the 3D images. Some brand related pages should give further indication to the aesthetic of the brand and what would work well and what would not.

Idea

The idea for the sale section which you can see in the wireframe in the following page is an isometric perspective where the objects are to the left of the screen to make space for the sale text. Below in the image is a green box, details of which (including dimensions and material) can be found in the following link: http://www.bitsandpieces.ae/sale/pacific-connections-boxes-box-4762.html#.XDdLTxP7SK5
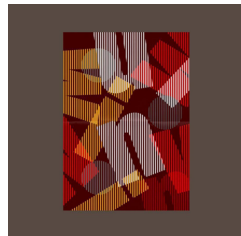

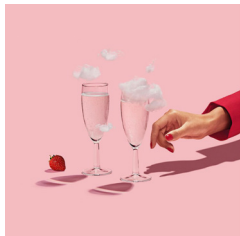

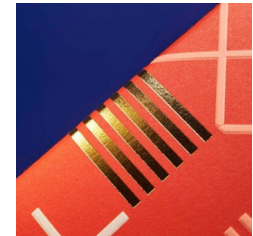

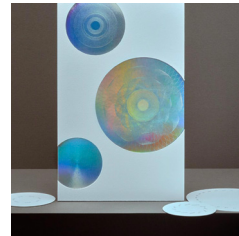

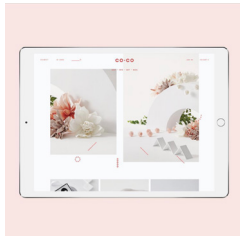

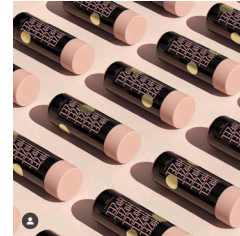

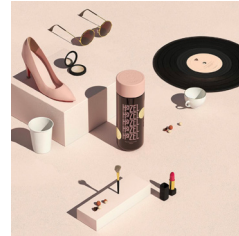

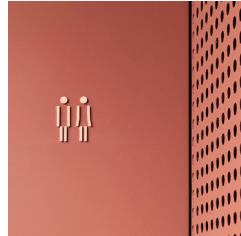

The importance of this box is that it is one of the items that are on sale and so it has a discount of 50% off.
